

# THE DORSET PARK BAND

P R E S S K I T

The Dorset Park Band is dedicated to delivering the finest in dance-rock entertainment for corporate retreats, fundraisers, private parties and festivals. We deliver tunes that are simply irresistible, and whose appeal spans the generations. We are experienced, reliable, and fun, and we know how to work with event planners and corporate meeting planners. Our performers have been each playing music for 20 years or more.

## Style/Sound

With both female and male lead singers, we deliver great vocal variety, complemented by tight harmonies and dynamic on-stage chemistry. Guitars and keyboards deliver a full and pleasing sound. An upscale dress code and a highly professional attitude ensures an event that is seamless and smooth from long before set-up to long after teardown. We are extremely proud of Canadian music and we try to keep our repertoire mostly Canadian.

We work with our clients to learn about any specific tunes or other customization that might be required, and we always involve the audience in playing along. We know we are hired to please the audience, and leave them with great memories of a high-energy, enjoyable event, and that is what we deliver.

## Location

We are based in Milton and are available to play anywhere in the western GTA.

## Dorset Park Band Press Kit

### What Kind of Tunes Do We Play?

The easiest description is, if it plays on BOOM 97.3, we play it. We have a large repertoire that includes classic rock favourites and party essentials, and we customize every performance according to the client's needs. Our focus is on audience interaction (singalong, clapping & dancing) along with our great pride in Canadian music.

### CLIENT TESTIMONIAL

*"We hired the Dorset Park Band to play at our Corporate Event. I had hired bands in the past, and dealing the Steve (the band's manager and lead guitarist/singer) was a dream compared to some people. He was fast, friendly, responsive and overall very easy to work with. Not only that, but for a very competitive price we got 6 very talented musicians plus a knowledgeable sound technician along with all of the sound equipment needed for a self-sustained evening of entertainment. I was very impressed with their performance and attitude as well, they were all very professional (looking and acting) with an entertaining performance, and when they took their breaks, Steve would come find me to ensure all was going well and everything was on track – while still respecting my time and space, considering I was attending the event as well. I would highly recommend the Dorset Park band for corporate events, weddings, or general parties! – Alex Guthrie, Guthrie Insurance Brokers Ltd. and on behalf of the Insurance Brokers of Toronto Region."*
